## Quality and Product News:

**Arugula, Spring Mix & Baby Spinach Alert:** Light production caused by cold weather has caused all tender greens including Wild Arugula, Spring Mix & Baby & Cello Spinach prices to nearly double since the weekend, & the prices may go up again this week! This situation may last for up to two weeks.

**Berries:** Supply is very limited and has been low on our quality scale. Due to short supply nationally, prices are also up. Best bets: cranberries, Huckleberries, Cape Gooseberries

**Romaine update:** Romaine Hearts back in stock from both the Imperial Valley & the Yuma, AZ area with new labeling stating date of production & growing area for better traceability.

**Avocados:** Supply & price back to normal. All fruit will be pre-conditioned.

**“Dry Veg” North to South Transition Update:** Chiles, Cucumbers, Eggplant, Bell Peppers, Melons, Yellow & Italian Zucchini & Tomatoes all starting to ship from MX. As always, expect quality & pricing fluctuations. Also, cold weather in MX slowing harvest. **“Wet Veg”:** All wet veg has ended in Salinas, for the most part. Will now be sourcing from the Imperial Valley & coastal regions, as well as Yuma, AZ. Expect price & quality fluctuations.

**Citrus Update:** TX Grapefruit, plus MX Limes & Juice Oranges now all in stock for the winter season. Organic Satsumas (Owari variety) from Comanche Creek have arrived!

**Florettes:** Our stocked Broccoli & Cauliflower Florettes are still being prorated to us. Plant growth has slowed with cooler weather, decreasing supply. Prepped product is available by pre-order; orders need to be placed by 3pm for next day delivery!

**Fresh Express:** Limited supply on both Shredded Lettuce & Tossed Salad Mix; shippers cover their contract accounts first.

**Holiday Décor:** Preorder codes for Boxed Greens, Garlands & Wreaths are active! They are a 2 day pre-order, Monday-Friday. No Returns or Credits!

## Farm Spotlight: Coke Farms

One of Greenleaf's longest standing partners is the family run Coke Farms out of San Juan Bautista, California. Coke Farms was founded in 1981 by Dale Coke who grew organic strawberries on his 1/4 acre farm. Since then, Coke Farm has grown and evolved from an organic farming operation into a thriving organic produce aggregation company. Their produce hub represents a diverse group of local organic fruit and vegetable growers located in and around the central coast. They work with growers to develop growing plans, as well as receiving, cooling, selling and shipping wide variety of organic produce. Coke Farm has been certified organic since 1981. As one of the founding members of CCOF, Dale Coke has long been concerned with the environmental and social issues surrounding organic crop production. Coke Farm is dedicated to providing delicious, healthy, organic produce not only as a service to their customers, but also for the betterment of the environment and the health of their hard-working employees. Their modern shipping and cooling facility operates year round in San Juan Bautista, California, and they pride themselves on offering consistently high quality organic and specialty produce to local, regional, national and international markets.

“We have been working with Greenleaf for over 30 years. They are an incredibly loyal and dependable partner and together we have been able to create a good social model with about 60 different growers and 150 miles of crops. It is a partnership my family really values.” – Christine Coke
