

IMPORTANT UPDATE:

Issues related to heat waves, wild fire smoke and a virus infestation (INVS) in the Salinas Valley has caused damage and loss to entire fields; quality on these items are affected. Please visit our website for a list of items that have experienced significant price and availability changes and check with your sales representative for more detailed information. We will update you as the week progresses.

Weekly Focus: Price, Quality, and Availability Updates

While demand has slowed for Iceberg and price has come down, Romaine and Leaf Lettuces remain affected by quality and price. The recent heat waves, smoke cover from recent wildfires, INSV virus and limited plantings due to Coronavirus are all causes. Labor is also now an issue because of limited harvesting hours in the heat. Not much change is expected this week and should continue until the transition to Huron in a few weeks then Yuma. Broccoli and Broccoli crown supplies have improved but issues such as yellow bead and decay are starting to come in on arrival. Jumbo Romaine hearts have the potential to be short towards the end of the week as the outer leaves are being peeled back to preserve some quality.

Conventional BMX & Artisan Mix are both limited and the new fall organic crops are expected to be ready late October. County Line is planted in Thermal and Comanche Creek in Chico. We do have steady supplies of Organic wild Arugula, Spring Mix & Baby Spinach's on hand.

INSV and Heat Damaged Field

Please check the pricing on your order confirmation if you are unable to check the pricing of items before ordering.

Newly Added Items:

Conventional Rainbow Chard (Ratto Brothers)

Chinese Eggplant

Chanterelle Mushroom Pre Order - WA

Pumpkins – CA

Decorative Items - CA

Blueberries – PE/MX

Sweet Onion - WA

Product News:

Lettuces: All lettuce precuts are subject to availability and price changes in the coming weeks. The recent heat waves and smoke from wildfires have had a severe impact on the Salinas Valley.

Persian Cucumber: Cucumbers are in short supply, Persian included. Growers planted less in the field this year in addition to less people working in the field.

Daikon Radish: Prices are starting to go up due to a planting gap.

Avocado: Ready to move our program to MX on all sizes starting next week. Quality on CA fruit is hit and miss now also fruit is not holding up ripening faster than normal.

Tomatoes: No change on supply and market this week on 5x5 and Roma; Baja production continues to be limited which put pressure on Oceanside Pole to cover demand also reason why we are receiving greener fruit the past few deliveries.
