

IMPORTANT UPDATE:

The Seasons have changed quickly this year with high heat and wildfire smoke ending many local heirloom crops such as Organic Cucumbers, Melons, Peppers and Tomatoes. The Capay Valley in Yolo County usually continues to produce until mid October but all these crops are mostly finished due to the smoke.

Product News:

Comanche Creek - Tomato supplies are winding down for the season. The last planting of Heirlooms are ripening slowly and sizing will trend smaller until the season ends. Toy Box Cherry supplies also winding down due to heavy smoke in Butte County.

Greens - We will only have conventional BMX & Artisan Mix to fill in for organics until the new fall crops are ready in October. County Line is planted in Thermal and Comanche Creek in Chico. We are hoping the high heat does not kill the tender greens.

We do have Organic wild Arugula, Spring Mix & Baby Spinach's on hand with steady supplies. Organic Little Gem is expected mid week from Coke farm.

Stone Fruit - Frog Hollow's Organic Peaches are finished for the season.

Whole Peeled Garlic - We will be using Christopher Ranch this week

Prepped Grapefruit and Oranges - Pricing has gone up due to short supplies of raw product.

Lemon Grass - Supplies have improved and price has dropped quite significantly!

Butternut Squash - New crop from the San Joaquin Valley.

Shanghai Bok Choy - Supplies have tightened up due to weather related issues. Price is going up as well

Kennebec Potato - Supply is limited and quality is inconsistent, ground temperature is too hot that potato is breaking too fast.

Valencia Orange - Market is up to the \$30 range also supply is very tight, no relief expected until Navels starts in mid - October

Seasonal Forecast:

- Organic Pink Pearl Apples from Oz Farms will be finishing up after this week.
- Locally sourced yellow and white corn supplies are just about finishing for the season.
- County Line has run out of water in Petaluma. Their BMX, Little Gem and Spring Mix season is over until the new crop starts in the Coachella Valley in late October. We will be using conventional BMX from Faurot until Comanche Creek's organic BMX begins in October. We will be using Coke Farms Organic BMX thru the fall as well.
